

Lightweight software Heavy industry

PRUFTECHNIK Technology is a part of an international group PRUFTECHNIK - the world leader in laser alignment systems for machines and vibration measurement and analysis. Our specialists create software dedicated to diagnostic devices used in industry. Thanks to our solutions the effectiveness of machines is improved - potential problems are diagnosed and eliminated before the failure occurs, which prevents costly downtime.

Due to our growing needs we are currently looking for

C++ DEVELOPER

Location: Wrocław, Poland

Your role: creating software used in machine diagnostics in industry, basing on C ++ and good software engineering practices.

Requirements:

- Bachelor or master degree in computer science or related fields (mathematics, physics, electronics and telecommunications, mechatronics)
- Good understanding of object-oriented programming methodology
- Experience in C ++ programming (commercial or own projects)
- Knowledge of signal processing issues
- Good command of spoken and written English, enabling reading technical documentation
- Analytical skills
- Good team-worker
- Full-time availability
- Familiarity with Linux and QT platform will be an advantage

We offer:

- Stable employment in an international, reputable, well established company
- Tasks providing a lot of satisfaction
- Interesting projects, on which you will have a real impact
- Ability to see how the developed system works for a final customer at the industrial plant
- Comfortable working conditions – modern office, play room, roof terrace, showers, bike parking, standing desks
- Friendly teamwork (Scrum)
- Language classes (English and German)
- Multisport card and supporting other sport activities (football, running, cycling)
- Group insurance
- Integration events organized regularly (barbecue, bowling, skiing)

Sounds interesting? Do not hesitate to apply!

We kindly inform you that we will contact selected candidates.
