

Lightweight software Heavy industry

Fluke Reliability offers reliability and maintenance teams the tools, software, and services they need to optimize asset performance. Home to three powerful iconic brands – PRUFTECHNIK, eMaint, and Fluke Connect – we serve over 70,000 customers worldwide with a relentless dedication to quality, innovation, and service. Our products inform customers on the health of their assets and our software and services drive better maintenance decisions – improving productivity, driving uptime, and reducing costs.

Pruftechnik Technology, as a part of Fluke Reliability, is currently seeking

JAVA DEVELOPER (mid)

Location: Wrocław, Tyniecka 17, Poland, (Temporary: remote)

Project: Brand new cloud based solution for machinery diagnostic, proofed by well-established patterns and years of engineering experience

Your role: Developing modern software for condition monitoring of the machines. As a member of an international scrum team you will have a real impact on the choice of technologies, tools and architecture. You will be involved in research activities and your ideas for improving daily work and processes will be more than welcome, as you will be co-working with open minded and innovation focused people.

Requirements:

- Bachelor or master degree in computer science or related fields (preferred: computer science, mathematics, physics, electronics and telecommunications, mechatronics)
- Knowledge of object-oriented programming methodology
- 2 years of experience in commercial JAVA projects, with use of cloud technologies
- Sound knowledge of Java 8 / Java 11, Spring Boot, Hibernate, SQL, REST, Docker, Kubernetes
- Good command of spoken and written English
- Analytical skills
- Good team-worker
- Full-time availability

Welcome:

- Experience with microservices architecture
- Familiarity with NoSQL, Angular, Kafka, MQTT, AWS, DDD, Kotlin
- Stable employment in an international, reputable, fast growing company
- Signal processing knowledge
- Real impact on architecture and technology stack in projects
- Supporting innovation and researching activity of employees (R&D days contracted)

We offer:

- Friendly teamwork
- Currently - 100% remote work, in post-Covid reality – we provide comfortable office in modern building, play room, roof terrace, bike parking, showers, standing desks
- Private medical care
- Multisport card
- Group insurance
- Socializing events

Sounds interesting? Do not hesitate to apply!

We kindly inform you that we will contact selected candidates.
