Due to our growing needs we are currently looking for

### **Technical Leader**

Location: Wrocław, Poland

#### **Day in the life of "Technical Leader"**

A day in the life of this role consists of working as a member of the team, developing code and software which is a key opportunity to work with the other team members to help them grow. Creating a good atmosphere and an innovative environment is important as a technical manager as you will be building your team from hiring to mentoring them through group processes. Doing this role successfully means your team will be continuously improving in all areas of technology in order to deliver the utmost value to our customers.

#### **Job Description**

- Architect/Design, implement, and maintain Cloud/IOT based applications
- Manage project milestones & schedules in Agile development environment working with the larger global team.
- Interface with various product groups across the world and drive adherence to organization KPI in an agile development environment.
- Collaborate with cross functionals teams e.g. PDM, UX, Ops.
- Mentoring the team, growing the skills and processes in the team.
- Fosters a culture of continuous improvement in all areas of technology and instills the principles of this culture in a team
- Conducting performance appraisals.
- Recruit, select, develop and effectively align engineering talent to optimize skills against product development needs

#### **We Offer**

- The opportunity to participate in working on multitenant SaaS IOT applications.
- Using framework that is customer focused in ensuring we deliver value to customer by means of collaborative approaches.
- An environment that promotes a healthy work place with amenities such as bike parking, a modern office with a recreation room, showers, standing desks, multisport card and private healthcare
- Social events (post pandemic opportunities)

#### **Your Team**

- The team is composed of back-end and front-end developers, quality assurance engineers, and scrum master from all over the world.
- The opportunity to work on this team includes being able to create and promote a positive, innovative and social environment, and when allowed by Covid-19 policy, social gatherings are often held.
- Fun fact: Our teams are named after superheroes!

#### **Education**

Bachelors or Master's degree in Computer Science or related field.

We kindly inform you that we will contact selected candidates.

For submitting documents, please include the following: "I hereby agree to the processing of my personal data contained in my job application, for the purpose of present and future recruitment processes, in accordance with the Act of 10 May 2018 on the Protection of Personal Data (Journal of Laws of 2018, item 1000) and in accordance with the REGULATION (EU) 2016/679 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 April 2016"

We hereby inform that the Administrator of personal data is Pruftechnik Technology Sp. z o.o. with its registered office at ul. Tyniecka 17 in Wrocław, Poland

**Experience**

- At least 10 years of experience in software development projects
- At least 5 years of technical leadership experience. Ability to create highly engaged and performing teams
- Experience with implementing enterprise cloud solutions
- Practical knowledge of JAVA 8/11, Kotlin, Spring boot/Cloud, Kubernetes, Kafka, Hibernate, REST, GraphQL, Angular, React, CI/CD, DDD, Avro

**Personal Skills**

- Excellent problem-solving and collaboration skills.
- Availability for travel and flexible work hours to work with teams across time zones
